📅 Born January 30th, 1994 (25 years old)

With a creative mind and an energetic personality, I dream about changing the world and the technology we know of. I've got a solid foundation with a bachelor of technology in Engineering Physics and currently I'm working towards a MSc in Media Technology and Engineering. I look forward to a future where I get to visualize extraordinary things, and code them into reality as a Technical Director within the gaming or film industry.

📖 Competences

Web programming : **HTML 5, CSS**
Computer languages : C, **C++**, C#, Processing, Arduino, **Python**, MATLAB
API/Libraries : OpenGL, GLSL
Languages : **Swedish**, Mother tongue, **English**, Professional proficiency, **French**, Intermediate,
OS : Mac OS, Linux, **Windows**
Programs and tools : Adobe Creative Suite, Office package, Maya, Blender3D, Unity, 3Ds Max
Personal skills : Leadership, Problem Solving, Teamwork, Inspiration

🎓 Education

2018 - 2021 **Current :** MSc Media Technology & Engineering, Linköpings Universitet (LiU)

Spring 2018 Exchange studies at Trinity College in Dublin as part of my studies at KTH.

2015-2018 Bachelor of Technology, Kungliga Tekniska Höskolan (KTH). Major in Engineering Physics
Bachelor Thesis : The Autonomous Vehicle

👜 Work Experience

June 2019 August 2019	Summer Research Project, Linköping University and LiU Innovation, <ul style="list-style-type: none">➢ Summer research project with connection to a researcher at Linköping University.➢ The topic of the project was within Storytelling and Data Visualization.
September 2018 - Current	Student Ambassador and Programming Mentor, Linköping University, <ul style="list-style-type: none">➢ Since September 2018 I'm working as a student ambassador for Linköping University. The work involves giving small lectures and meet with prospective students.➢ Since September 2019 I'm working as a programming mentor where I'm helping students at the university with programming courses and projects.
